PRODUCTS

Delicaded texture and the embllished **color accent** fully **highlight** the products.

Wetland is a product based on a fully organic pattern with soft natural color accent which provides a gentle and elegant solution for those spaces which require a neutral background but not a fully neutral flooring. The soft tints used in the carpet tiles generate calm dynamics into the pattern so to create unique combinations enhancing the whole interior design, without overtaking its neutrality. The fill color product, Awake, by using the same hues of Wetland, extends the flooring design options with a natural textured design and delicates tones.

WETLAND PRODUCTS PRECISION & PASSION

“For many of us, **water simply flows from a faucet**, and we think little about it beyond this point of contact. We have lost a **sense of respect** for the **wild river**, for the **complex workings of a wetland**, for the intricate web of life that **water supports**.”
