VOXFLOR: PASSION AND PURPOSE

Voxflor has been making high-quality carpet tiles for over **25 years** supplying businesses in **over 50 countries** worldwide.

Our **3 manufacturing** facilities utilize the very latest tufting and backing equipment together with a digital print capability and comprehensive in-house yarn processing that can produce more than **10 million m²** of carpet tiles every year.

With an International design team creating new innovative designs for the Voxflor brand and providing a comprehensive floor design and product customization service for our customers, you can be assured that your Voxflor products will deliver the ultimate in quality, design, and color flexibility.

We believe in doing business with passion and purpose, an ideology that runs through every tile we manufacture and every project we complete.

Our passion?

To bring colorful and unique flooring designs to commercial interiors across the world.

Our purpose?

To do the right thing by all our stakeholders and prove you can have a high-quality, responsible, sustainable product that doesn't cost the earth.

When you work with us, you work with an exciting, hard-working, and sustainable business. A business with an impressive pedigree and a business that is as passionate about the design process as you are.

OUR LATEST RELEASE

INTRODUCING THE VOXFLO NEW PRODUCT RELEASES.

Voxflor is constantly developing and innovating new product solutions and likes to bring them to their customers as quickly as possible.

This section in the catalog will be regularly updated with new releases and made available in digital form as soon as each product is released.

If you would like to be kept up to date with new releases just sign up for our newsletter and you will be able to download new information as soon as it is made available.

VOXFLO® LATEST RELEASE

Rhythmic pattern variations
Plush, luxurious and harmonious, 3 co-ordinating
patterns with different intensity, gentle and delicate
to intense and vibrant available in 9 neutral tones.

SOUNDTRACK COLLECTION

Ambient 02

The graphic representation of sound is the theme of this classy collection. Like a great orchestra it combines perfect unison, intonation and dynamic range. The plush loop pile construction allows the tonal pattern to gently show through to create soft elegant overall aesthetic.

Each of the 3 products takes the same pattern but increases the intensity to provide a range that can be used individually or combined together to create a perfect symphony.

Ambient is the most subtle pattern, like the strings section in the orchestra offering a gentle background track.

Folk adds some more intensity, some vocals the background and a more contemporary styling.

Hardrock brings a more dynamic pattern and more noise to the overall design.

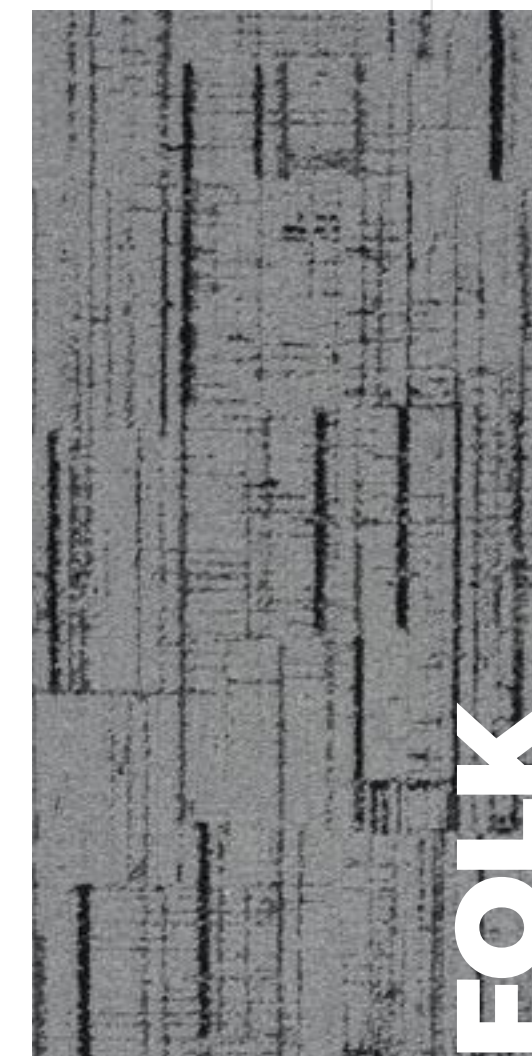

Hardrock 05

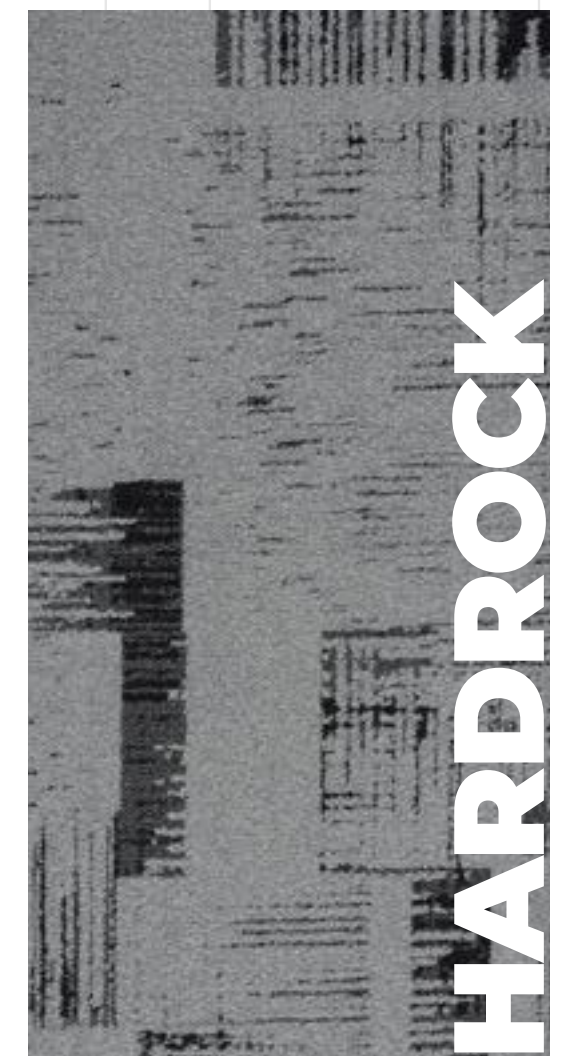

AMBIENT

Construction: Multi-level Loop

Hardrock 04, 05, 06, 08

There are 9 beautiful tone-on-tone colors that utilise the Econyl yarn system.

Econyl is a regenerated nylon sourced entirely from ocean and landfill waste such as fishing nets and waste fabrics. Through the regeneration process, ECONYL® yarn never loses its virgin qualities which means it can be recycled an infinite amount of times, making it a perfect sustainable fiber solution.

Features a large format 50cm x 100cm plank format to ensure that the overall pattern is perfectly balanced and distributed across the space.

VOXFLO®

LATEST
RELEASE

Connecting people and spaces.
3 smart patterns in 18 color combinations designed
for today's connected spaces.

NETWORK COLLECTION

Networking, Connecting, and Innovating are all words we use in today's technological world for the way we work and, the places we work. In fact they are also the inspiration for Network, a new product that brings together pattern, color, and form to create floor designs for today's commercial spaces.

There are 3 patterns and 12 color themes in the range specifically designed to provide a design toolbox for creating coordinated work and leisure spaces in a busy modern commercial office space.

The Access pattern provides a clean modern geometric base that is extremely practical in its own right, but the digital magic comes from the Connection product which introduces a soft, elegant, linear, color accent, perfect for zoning and wayfinding applications or just livening up the space.

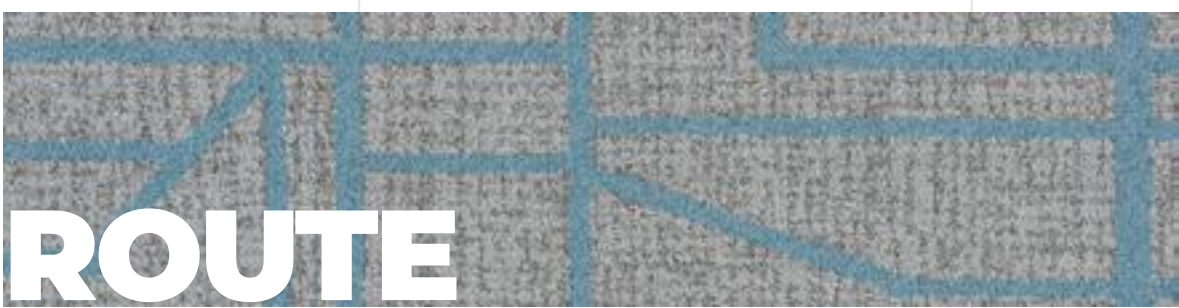

When you really want to make a statement, the last product in the collection. Route gives you the ideal solution. A powerful, textured, random grid pattern to create individual work zones, creative corners, and lively breakout spaces.

Construction: Multi-level Loop
Fiber: Voxflor Certified Nylon
Pile Weight: 22 OZ/yd2
Average Pile Height: 4.0mm±0.5mm
Tile size: 25cm*100cm

RELEASE

*The need for speed!
Two fast-paced patterns on a dynamic base finished
with a flash of color to add a spark to any interior.*

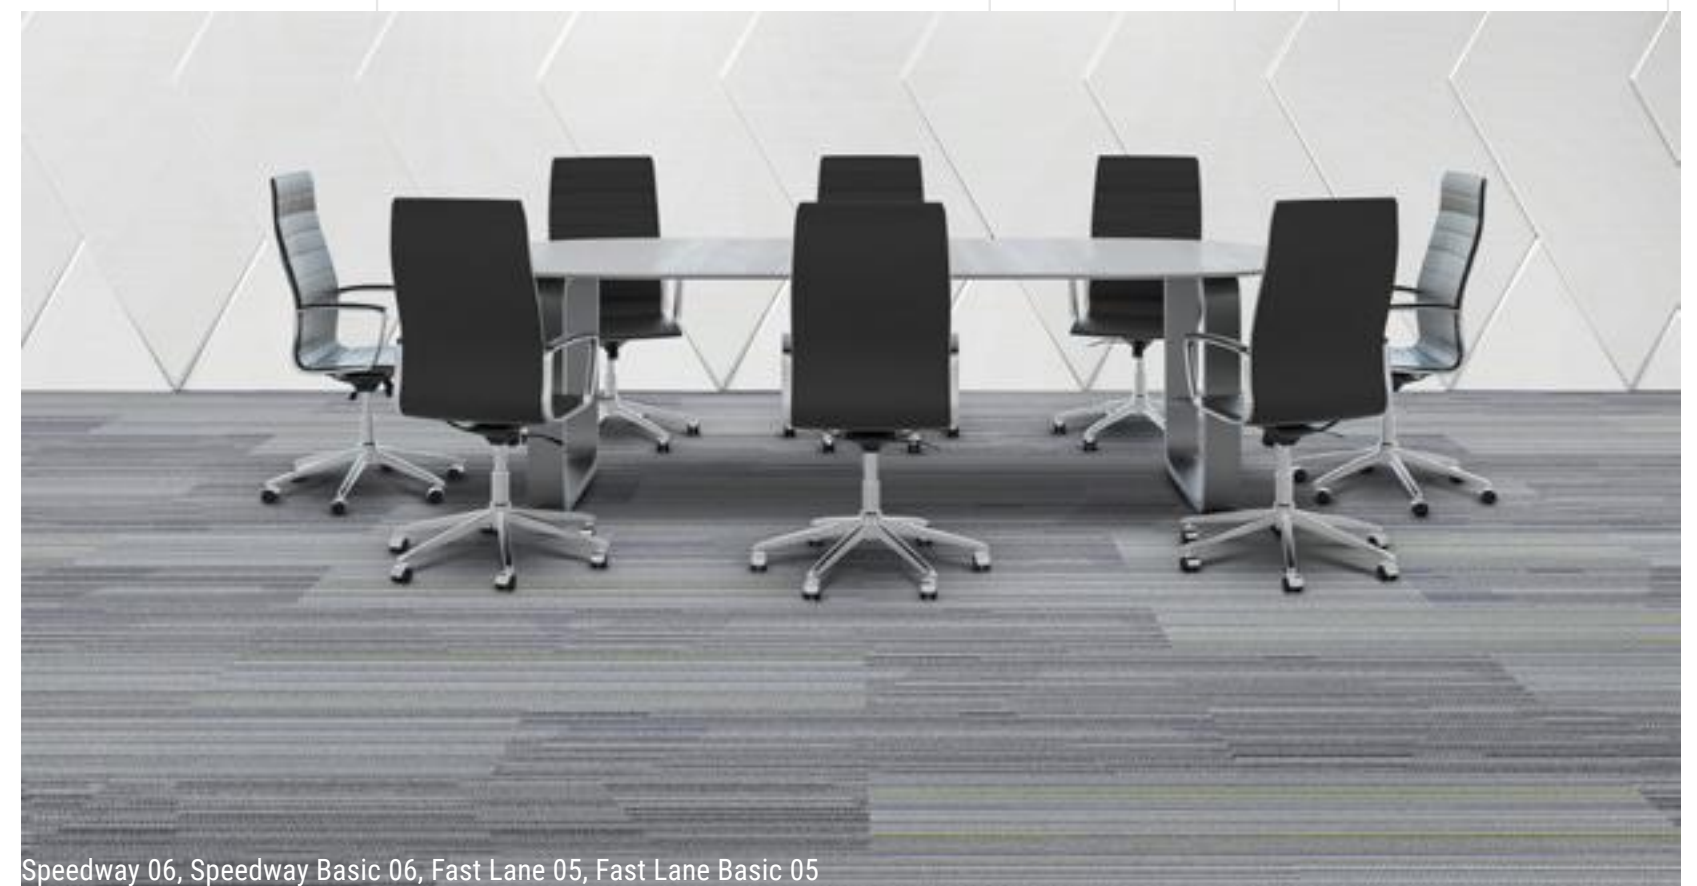

Speedway 01

Turbojet airplanes, high-speed trains, fast cars, and instant communications are just a few examples of how much our daily life is connected to speed. Speedway translates the theme to a modern, dynamic linear design interspersed with a unique chevron texture and subtle color accent to really bring the product to life.

The two loop pile products of the collection share the same color base and accent colors making them perfect coordinates for mix and match design applications.

Fast Lane represents raw speed with a long regular linear pattern highlighted with 2 single-color accent stripes. Speedway adds a speed boost with a slick chevron pattern just like hitting the turbo switch heightening that feeling of fastness and velocity.

Speedway 06, Speedway Basic 06, Fast Lane 05, Fast Lane Basic 05

CARPET TILES

We are proud to present our latest carpet tile product range collection. All of the products featured are available through our 15-day made-to-order program and more than 80% are available from stock in our Quick Shipment Range.

You will find icons denoting products that are part of our Quick Shipment, Color Custom, and SHAPES service for convenience.

We have tried to make this catalog more than just a technical product guide so you will find the products displayed by style rather than alphabetically. However, when you need to find a product or specification quickly there is a full alphabetical listing at the back of the catalog for your convenience.

Voxflor has an extensive “back catalog” of styles not shown in this catalog but available to order on request. Please contact our customer service for more information.

Sense 75015

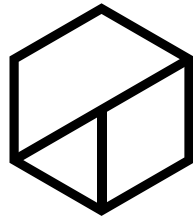

Sense 75025

For many designers finding the right neutral base color to build their overall design around can be a major challenge, that's why we created Sense. A stylish but modern textured pattern in a range of 36 shades of gray and beige from beautiful warm naturals to cool sharp metallics and everything in-between.

The Multi-level loop textured plank has been developed to give a rich plush texture which hides seams perfectly to give a beautiful overall appearance.

COLOR SENSE

*Sensual color accents to Inspire and energise
Six beautiful gradated pastels in a plush multi-level loop plank.
A natural partner for Sense and an original design in its own right.*

Color Sense 75012002, 75012005, Sense 75012

Building on the popularity of Sense, designers asked if we could create a color coordinate to provide the opportunity to accent areas in the floor-plate or transition between zones. With a large range of bright accent colors in products like Eurogarden 202, we decided to make Color Sense a softer pastel accent range that not only provided a solid accent color but also a graduating range of color tones.

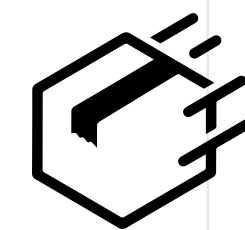

Color Sense 75012005

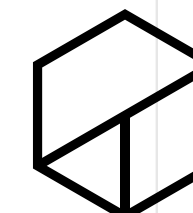

Color Sense 75012002

Color Sense takes the popular Gray base from the Sense collection and integrates it with 6 pastel accent colors. The individual color ranges incorporate 8 different tiles each with increasing strength of the accent color. Choose just one of the tiles for a simple inset or zoning area or go all the way to an 8 tile 2m long seamless graduation.

SPIRAL COLLECTION

*Ripples of calm radiate over soft natural tones
A modern multi-level loop with 12 softly layered natural colors that can be
still and reserved or pop with a splash of color when you need it.*

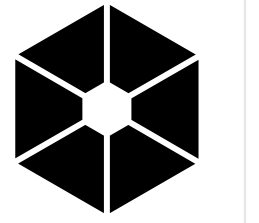

Spiral 75001, 75002, 75003, Spiral Plus 75003

The Spiral collection is a simple easy-to-use design concept using cleverly layered patterns and colors to create a multi-dimensional appearance. The 6 earth tone color bases are overlaid with a subtly contrasting spiral pattern emulating ripples on a pond or sandy dunes in the desert.

Spiral's quiet persona comes alive when a third color level is added with the Spiral Plus range. The three accent colors pop above the surface like a soft sunset or a morning reflection on a lake.

MUNDI COLLECTION

*A Journey back in time
Three beautifully textured distressed patterns in 5 neutral
grey bases with a coordinating 10-color tone on tone range
form the foundation for this exciting product collection.*

Fossil 61675, Misty 63193, Misty 42131, Base 20000

Fossil 61675

Misty 63193

Misty 42131

Base 20000

Base and Moss form the foundation of the range. Base, with its highly textured aged stone pattern and 5 tonal colors is elegant in its simplicity. Moss like its name, features a soft random textured base for its 12 saturated colors which range from soft earth tones to rich blues and greens. Moss is an ideal foil for the base pattern offering an opportunity for accents and inserts but it also forms the pattern color for Fossil and Misty.

Selection

Choose the product and area of pattern you want to customize. It can be just part of the pattern or the whole colorway.

Color Choice

Choose a color from our extensive Eurogarden range which offers over 200 colors or send us a color reference for our designers to match.

Sampling

We will make a digital product image firstly and a real tile sample later for you to see and approve before production. All sampling is created by our own in-house design team.

Production

We will process the yarn and manufacture the product based on your individual requirements.

COLOR
C U S T O M

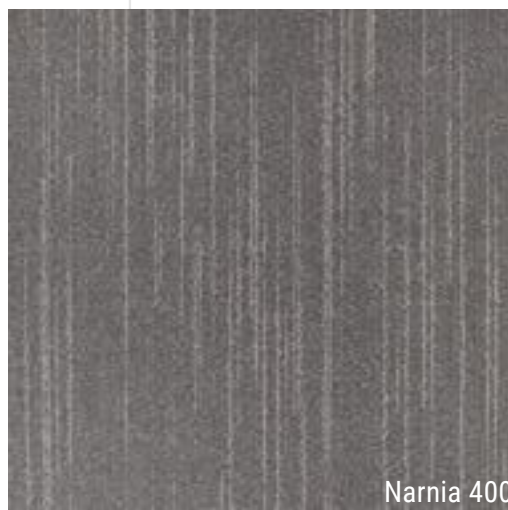

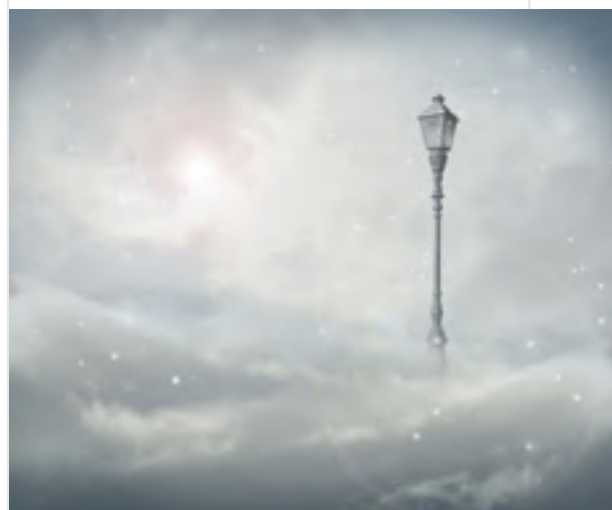

We're passionate about custom design and will work with you to create the color you've been dreaming of. Our in-house yarn processing, sampling and production capabilities mean it's both fast and efficient. Low Minimum Quantity, No long lead times, No extra costs.

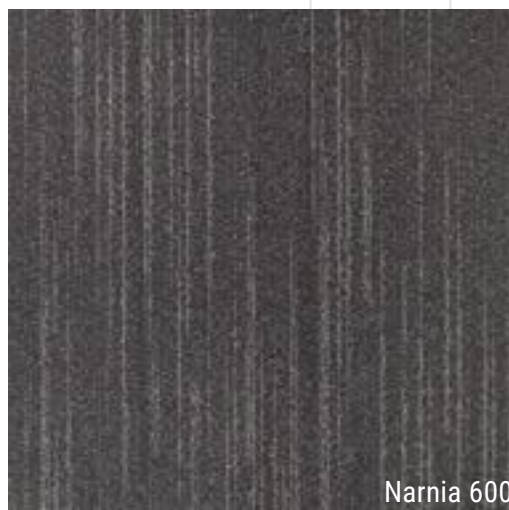

NARNIA

*Real style on a budget – a wardrobe essential.
Contemporary style linear plank in 7 colors and 9 shape formats*

Narnia 400, 600

Narnia 400

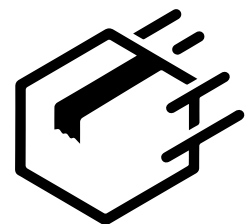

Narnia 600

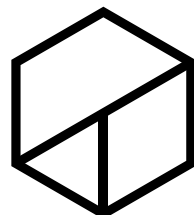

Like the little black dress in every lady's wardrobe, Narnia fulfills the position of classic styling, long-lasting, versatile, and affordable design.

A multi-level loop in 7 tone on tone colorways its' become part of the designer's toolbox they can't do without.

But, there's also a twist in the story because Narnia transforms into multiple formats through the "Shapes" program which means you can choose from large and small squares, planks, triangles, hexagons, pentagons, and even trapezoids. Prince Caspian would have been proud!

SUGGESTED
COMBINATION:
SCANDINAVIA

Narnia 500, Almhult 800

Aarup 900

Molde 900

The three patterns that make up this collection all share the same cut and loop construction which beautifully replicates the simplicity and craftsmanship of Scandinavian design.

Molde and Aarup are both inspired by classic Nordic timbers. Molde takes on the ultra-simple Beech grain effect and Aarup emulates the more dynamic oak grain pattern. Adding more movement is Almuhlt which adds a geometric element seen in block wood designs.

SCANDINAVIA COLLECTION

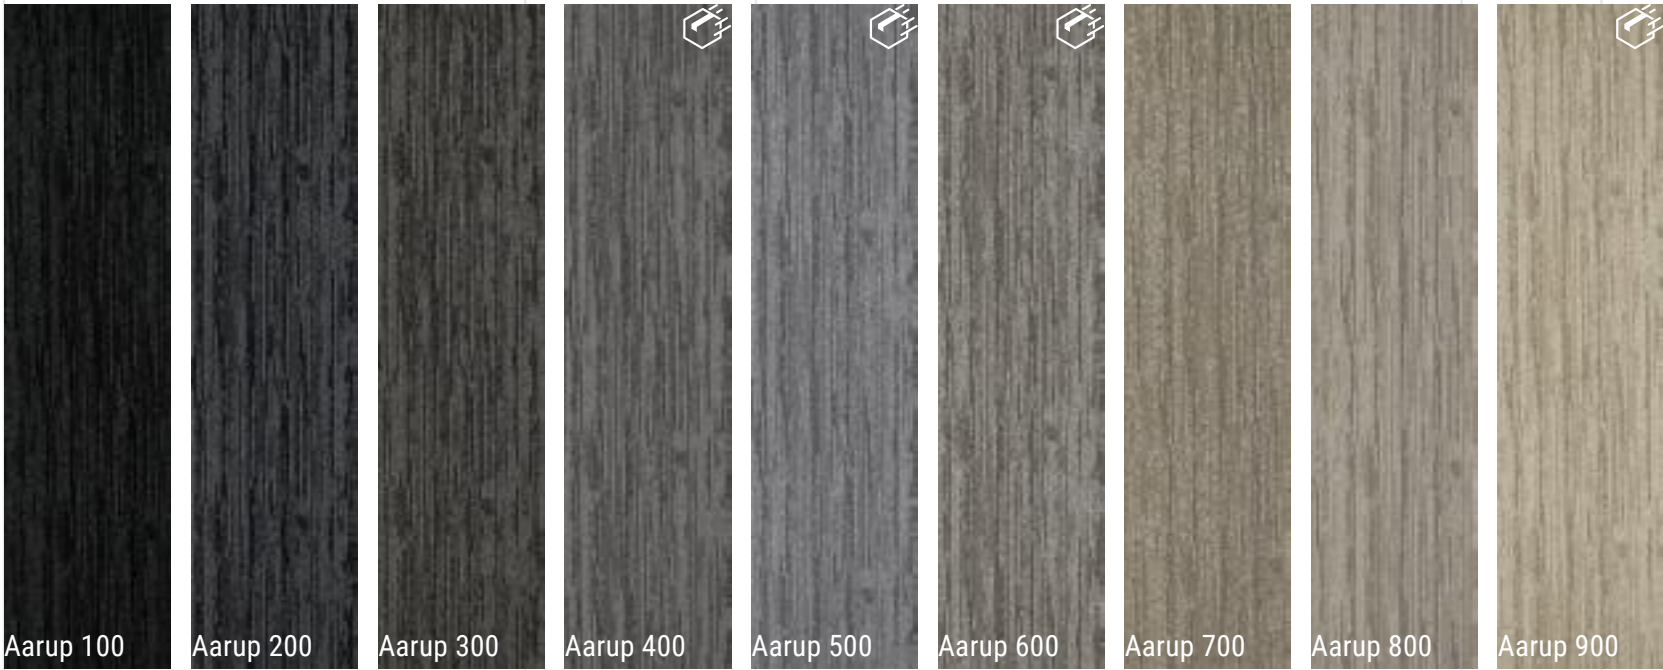

*Elegant, peaceful, and connected to nature.
Three practical but beautifully crafted linear patterns
and textures inspired by classic Nordic design.*

MONDRIAN

Aarup 500, 600, Mondrian 100-75001

MONDRIAN COLLECTION

*The rhythm and relationship of color and style.
3 patterns inspired by the Mondrian classic.*

Mondrian 200-75001 Basic, Mondrian 300-75001 Basic, Mondrian 200-75004 Basic, Mondrian 300-75004 Basic

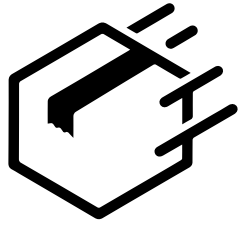

Taking inspiration from the art of Piet Mondrian, and from the whole Bauhaus movement, this collection breaks down the classic design into 3 offers.

Mondrian 100 provides a dynamic but neutral canvas for Mondrian 200 to apply its magic by introducing simple geometric color planes in 7 colors. Mondrian 300 completes the suite of patterns with dynamic, colored rectangles.

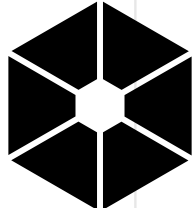

The multi-level loop construction adds a third dimension to this classic design.

GREEN FIBERS

Sorona is a triexta polymer, made with 37% bio-based materials. Features permanent stain and bleach resistance and built-in UV resistance to keep carpets looking great for years.

Regenerated Nylon

100% recycled yarn made from nylon waste such as old carpets, fabric scraps and fishing nets. Ecomyl retains its original performance characteristics even after regeneration.

We are committed to bringing sustainable materials and processes into our products and our manufacturing. Using green fibers in our construction helps us reduce our environmental footprint and helps you create more sustainable solutions for your customers.

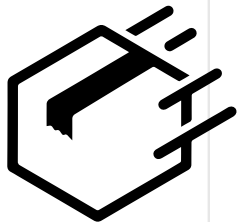

ARCTIK

*Untouched, elegant, and pure.
A unique luxury product in design, color, and construction.
2 elegant patterns, 24 stunning cool shades,
sustainable bio-based fiber, superb performance.*

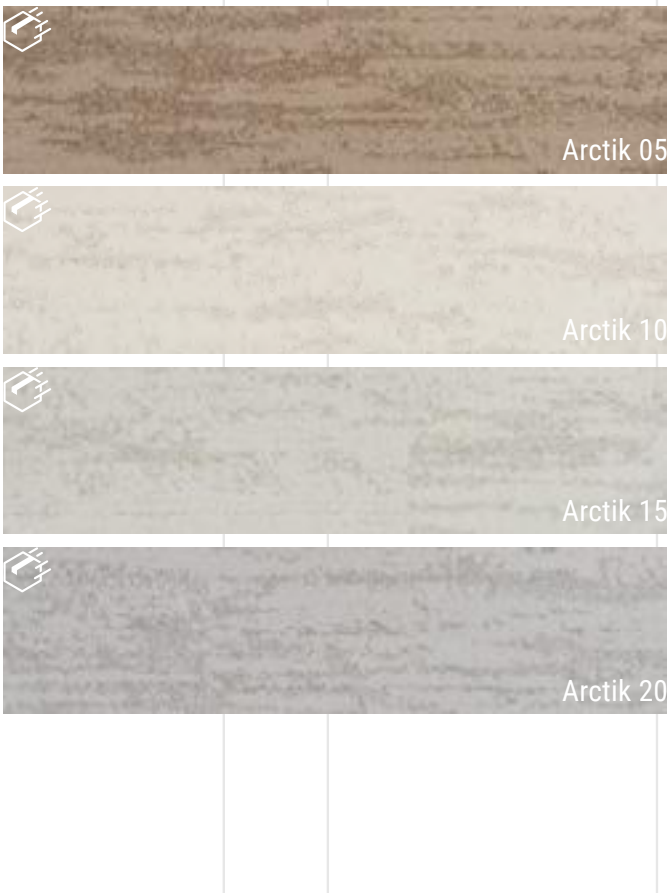

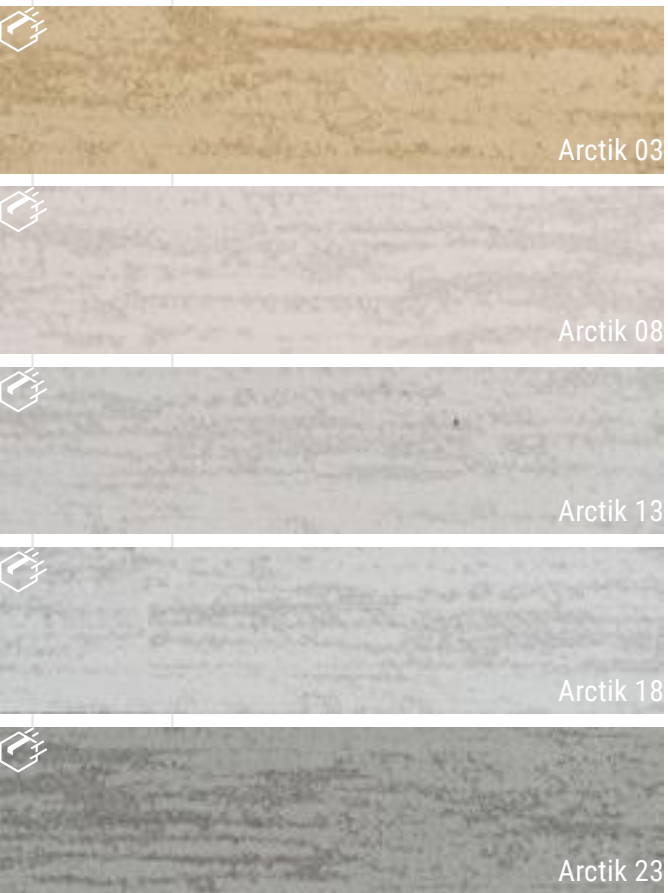

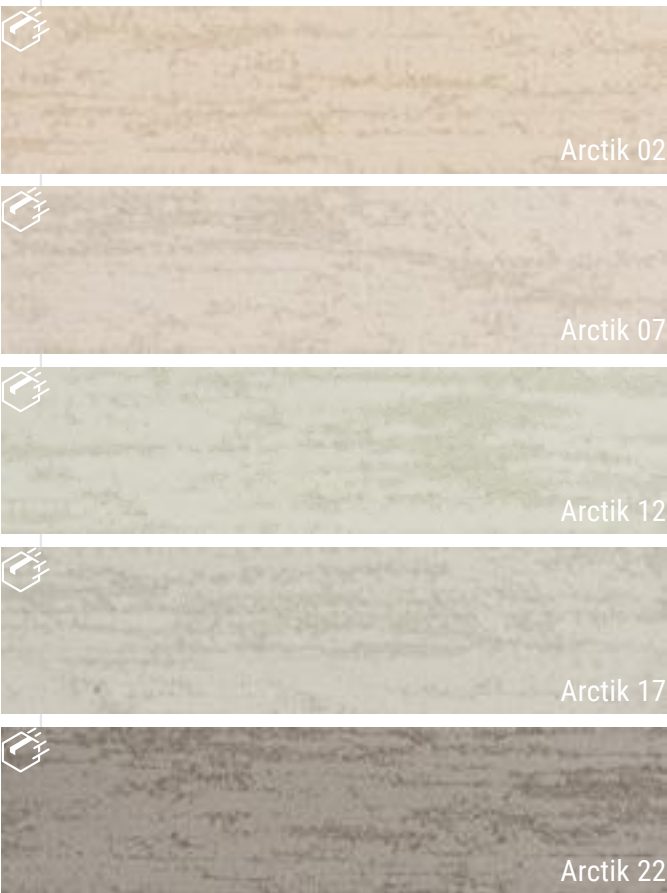

Arctik 24

QUICK SHIPMENT

Construction: Multi-level Loop
Fiber: Sorona® Fiber
Pile Weight: 34 OZ/yd²
Average Pile Height: 5.0mm±0.5mm
Tile size: 25cm*100cm
Area of Use: Commercial – Heavy Duty
Installation: Ashlar, Herringbone

It is unusual to see a commercial carpet product that is developed around light neutral shades due to maintenance concerns but Arctik, with its high-performance Sorona fiber construction, superior soil and stain resistance and fast-drying capability makes maintenance a breeze so lighter colors are now a much more practical solution.

Arctik 09

Arctik is a heavily textured random pattern reminiscent of freshly fallen snow. There are 24 light and mid-tone colors built around a neutral gray and beige color base.

The Sorona yarn's soft feel and delicate sheen further add to the overall appearance giving the product a truly unique and luxurious appearance.

Arctik 24

Arctik 20

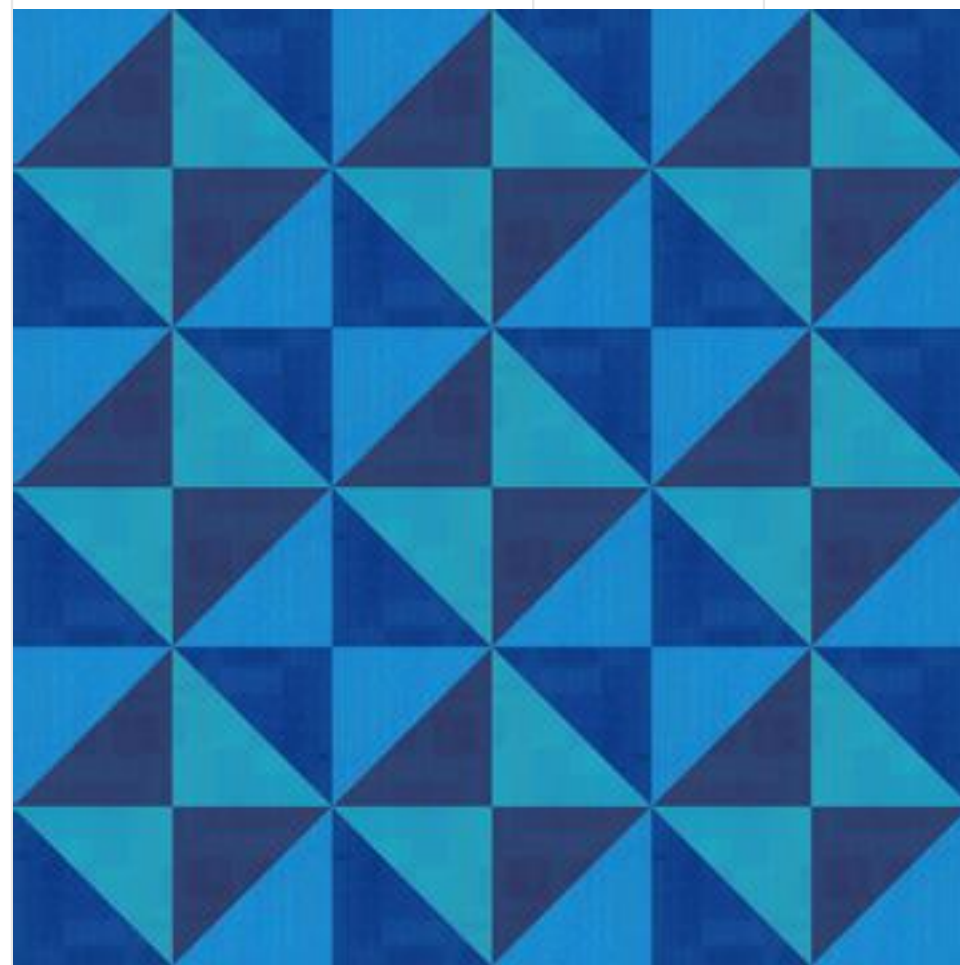

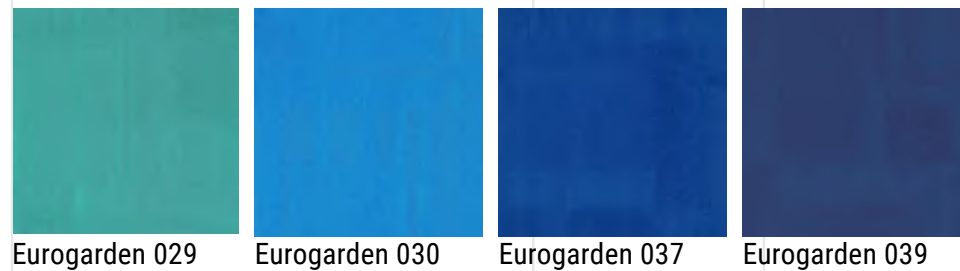

Sorona is an eco-efficient fiber blended with 37% plant-based fibers. It uses up to 40 percent less energy and emits up to 63 percent less greenhouse gas than entirely non-renewable nylon.

Sorona is an extremely high-performance carpet fiber with high durability and stain resistance built into the fiber what's more it is exceptionally soft to the hand and the eye.

LANDSCAPE

COLLECTION

Inspired by Nature - Sophisticated pattern and color combinations straight from nature's own color book.

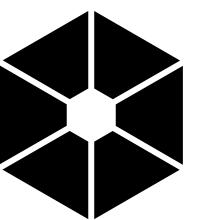

Bark 30000, Bark Edge 36740, Moss 6740

Bark Edge 36740

As in nature, commercial spaces need different solutions for different spaces. Landscape provides that solution in two foundation patterns Stone and Bark, a comprehensive range of feature colors that dapple the neutral backgrounds in Plus, a stunning graduation from tone to accent color in Edge, and ultimately the solid texture Moss.

COLOR CUSTOM

These stylish planks feature, realistic textures using a multi-level loop construction with color delicately placed to create the random shades found in nature.

Landscape is an excellent solution for zoning in workplace projects but is equally at home in retail, hospitality, and education projects.

The fully flexible mix and match color capability provides 136 individual pattern color combinations. If you still cannot find the combination you want, Custom Color is available to find the perfect solution for your project.

SEASON COLLECTION

*A symphony of color in perfect harmony
A deep textured earth base plays host to four seasonal colorways.*

Season Basic, Season Winter, Season Spring, Season Summer, Season Spring

Season Basic forms the heavily textured base of this collection. It's beautiful earth tone planks are reminiscent of a forest path in summer.

The distinct colors of the four seasons are introduced through the Spring, Summer, Autumn and Winter colorways.

COLOR CUSTOM

Season Basic

With three levels of color saturation it's easy to mix and match the different color intensities to create unique design concepts.

Season is ideal for zoning and creating different personalities within the workspace. Creating natural pathways which can lead to quiet contemplation spaces or more vibrant collaboration areas. Alternatively, just intersperse different color combinations to create that calm natural space in nature that we all enjoy. With Season it's like a walk in the park.

Construction: Multi-level Loop
 Fiber: Voxflor Certified Nylon®
 Pile Weight: 26 OZ/yd2
 Average Pile Height: 5.0mm±0.5mm
 Tile size: 25cm*100cm
 Area of Use: Commercial – Heavy Duty
 Installation: Ashlar, Herringbone

SPACEWALK

A view from above.

Inspired by the earth's surface viewed from space. Spacewalk is a trio of patterns sharing the same 5 colorways but each with it's own unique texture and color blending.

Spacewalk 100-03, 200-03, 300-03

Spacewalk 100-03, 200-03, 300-03

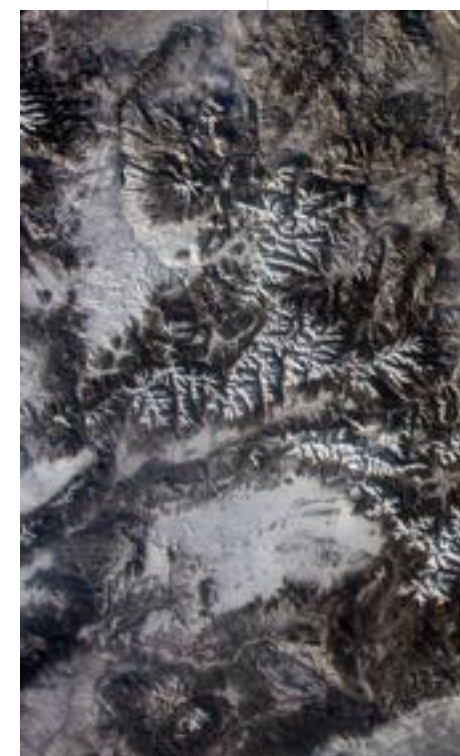

Spacewalk 100-03

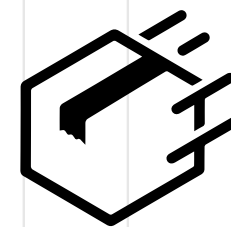

Spacewalk 200-03

Spacewalk 300-03

Spacewalk is a linear based organic pattern with three distinct textures which represent the different surface patterns of the earth as seen from space. Spacewalk 100 is the most simple construction using a tip-sheared multi-level loop, the surface pattern like a view of the plains, crisp and clear. Spacewalk 200 adds additional texture representing a more mountainous topography. Spacewalk 300 brings additional color tones and rich plush texture like looking at the earth through fluffy clouds.
